

AIR 1 is a wonderful lift to my spirit. It is a positive resource, thus keeping me productive as a resident. AIR 1 is a positive motivator through its music, dj's, and other messages. If AIR 1 were displaced by an LPFM broadcaster, this would prove as a great dis-service. I work at the local juvenile hall, and the many young people in the facility, find AIR 1 inspiring. Therefore, there is a huge possibility that these troubled youth may continue to listen to AIR 1 once they are released back into our community. They, too, may find AIR 1 as a positive resource, thus keeping them productive as a residents of this area. With this being said, AIR 1 is in the public interest!
